

EMS PROCEDURE: EMERGENCY PREPAREDNESS AND RESPONSE

I. Purpose

To provide a standard procedure to identify the potential for accidents, incidents and emergency situations. To develop reviews, tests, update emergency preparedness and response plans in compliance with ISO 14001, section 4.4.7 and all applicable federal, state and local regulatory requirements.

II. Definitions

None

III. Scope

This procedure describes how TYAD will prevent, mitigate, handle and respond to emergencies throughout the installation.

IV. Supporting Documents

1. Form 6, Environmental Aspects and Impacts
2. Form 15, Environmental Management Program

V. Procedure

1. In compliance with ISO 14001, section 4.4.7 and all applicable federal, state, and local regulatory requirements, TYAD must develop and maintain the emergency preparedness and response plan. The plan will describe how to prevent and mitigate the environmental impacts that may be associated with them.
2. The Chief of the Environmental Management Division will implement the approved emergency spill response document.
3. The Chief of the Environmental Management Division will review, test, and update the required emergency preparedness and response plan.
