

Tobyhanna Army Depot

Tobyhanna is the U.S. Army Center of Industrial and Technical Excellence for Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance and Reconnaissance (C5ISR), Electronics, Avionics, and Missile Guidance and Control.

Tobyhanna is the U.S. Air Force Technology Repair Center for Tactical Missiles and Rigid Wall Shelters and Portable Buildings.

Tobyhanna has the ability to flex and surge to meet changing requirements with a diverse and skilled workforce. The depot is committed to providing Warfighters with the best equipment to support dynamic mission requirements in support of worldwide C5ISR readiness.

TRAINING

About Us

Tobyhanna Workforce Development Branch is committed to advancing Warfighter skills through a range of professional certifications and hands-on training programs. Over the past 10 years, we've equipped our workforce with the tools needed to excel in a rapidly evolving operational environment.

Driven by Excellence

We are driven by a culture of continuous improvement and a commitment to excellence in supporting the Warfighter. With a global footprint and unmatched expertise in C5ISR readiness, we are now offering our specialized training programs to empower today's Warfighters.

Advance Your Skillset with Tobyhanna's Workforce Development Certification and Hands-On Training!

Empowering the Warfighter with industry-recognized certifications and specialized hands-on training for a competitive edge.

Why Choose Us

Our training programs are aligned with industry standards, ensuring that your skills are recognized globally. As an official Electronics Technicians Association International (ETA) test site and a Pearson VUE Test Center, we provide convenient, on-site testing for all our certification programs, offering a streamlined path to professional development.

Impact and Future Directions

Earning a certification or completing a hands-on training program with the Tobyhanna Workforce Development Branch means more than just gaining a credential—it's about advancing your career, expanding your expertise, and contributing to a skilled and capable force.

Future Offerings: Stay tuned for new certifications and training in emerging fields and technologies.
